

Early Years Talk-Talk

Friday 8th March 2019

STAR OF THE WEEK

for trying really hard with her
reading in phonics

Message from Early Years

Wow! What another fun filled week we have had! Our week started by finding some eggs in the classroom. We are all so excited to find out what is inside them once they have hatched. We discussed as a class what we thought could be inside the eggs. Is it a dinosaur? Is it a duck? Is it an alien?

We have continued to read the story 'The Little Red Hen' and have even retold the story using our story map! Nursery have been busy finding rhyming words from the story and Reception have written instructions to make some yummy bread.

We have also been exploring dinosaurs by painting a dinosaur, writing a list of dinosaurs in the museum, making a dinosaur small world, finding facts about dinosaurs and making a dinosaur using 2D shapes.

During World Book Day, the children enjoyed talking about their favourite story and even used paint on the computer to draw their own favourite character!

PE Sessions

Please ensure your child brings their PE kit into school. Your child's PE kit can be kept at school and they will then bring it home at the end of each half term. Without a PE kit your child will not be able to participate in the session.

Nursery

Next half term Nursery children will be starting forest session on a Friday instead of PE. Please can you provide your child with forest clothes and wellies. Thank you!

Lunches

Please could you be mindful of the amount of food that is in your child's lunchbox as some children are struggling to eat it all, but feel that they should. This also means they are missing their playtime which is an important part of the day, where they develop their social and physical skills before learning in the afternoon.
