

September 2019

Dear Parents/Carers,

### **Years 3 & 4 Digestion Theme**

As part of our digestion theme we are studying teeth and how to care for them.

We have purchased some plaque disclosing tablets from the dentist. These are suitable for children and work by chewing, spitting out and then looking at the pink areas stained to show plaque which is then brushed away. We will be using these on Monday 23<sup>rd</sup> September 2019, please sign to confirm you agree to your child participating in the session.

Many thanks,

Year 3/4 team

---
