

Chadsmead Primary Academy

Online Safety Policy

Online Safety Officer: Hannah Robinson
Safeguarding Governor: Iona Chisholm

Adopted	by Main Governing Body
Review date	by Main Governing Body
Publication	Admin Share (H:), Master Policies, Online Safety Policy

The Online Safety Policy has been written by the school with guidance from Staffordshire County Council's guidelines, SWGfL School E-Safety Policy, and with government guidance. It has been written in association with the designated E-Safety Governor, agreed by the Senior Leadership team and approved by Governors.

The Online Safety Policy was written by Miss Robinson, the Computing Coordinator.

The appointed online officer for the school is Miss Robinson.

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Monitoring logs of internet activity (including sites visited) / filtering
- Internal monitoring data for network activity
- Surveys / questionnaires of
 - students / pupils
 - parents / carers
 - staff

Scope of the Policy

This policy applies to all members of the school community (including staff, students / pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of school ICT systems, both in and out of the school. The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of students / pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying or other Online Safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data. In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate Online Safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within the school:

Governors:

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about online safety incidents and monitoring reports. A member of the Governing Body has taken on the role of safeguarding officer, which includes online safety. The appointed safeguarding officer for the school is Iona Chisholm.

Headteacher and Senior Leaders:

- The Headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety will be delegated to the Online Safety Officer.
- The Headteacher and (at least) another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see flow chart on dealing with online safety incidents – included in a later section – “Responding to incidents of misuse” and relevant *Local Authority HR* disciplinary procedures).
- The Headteacher/Senior Leaders are responsible for ensuring that the Online Safety Coordinator and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.
- The Headteacher / Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.

Online Safety Coordinator / Officer:

- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies / documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority / relevant body
- liaises with school technical staff
- receives reports of online safety incidents and creates a log of incidents to inform future online safety developments,
- attends relevant meeting / committee of Governors
- reports regularly to Senior Leadership Team

Network Manager / Technical staff:

Our network is managed by Concero Technology Services. Individuals at Concero are our Network Management Staff, who are responsible for ensuring:

- That the school's technical infrastructure is secure and is not open to misuse or malicious attack.
- That the school meets required online safety technical requirements and any other guidance that may apply.
- That users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed.
- The filtering policy is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person

- That they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant.
- That the use of the digital network, online service and communication services are regularly monitored in order that any misuse / attempted misuse can be reported to the Headteacher for investigation.
- That monitoring software / systems are implemented and updated as agreed in school policies.

Teaching and Support Staff:

Are responsible for ensuring that:

- They have an up to date awareness of online safety matters and of the current school Online Safety Policy and practices
- They have read, understood and signed the Staff Acceptable Use Policy / Agreement (AUP) (Appendix 1)
- They report any suspected misuse or problem to the Headteacher for investigation.
- All digital communications with students / pupils / parents / carers should be on a professional level and only carried out using official school systems.
- Online safety issues are embedded in all aspects of the curriculum and other activities.
- Pupils understand and follow the Online Safety Policy and acceptable use policies.
- Pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations.
- They monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- In lessons where internet use is pre-planned students / pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.

Designated Safeguarding Lead:

Should be trained in Online Safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

Pupils:

- are responsible for using the *school* digital technology systems in accordance with the Pupil Acceptable Use Agreement,
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations,

- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so,
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

Parents / Carers:

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website and information about national / local online safety campaigns / literature. Parents and carers will be encouraged to support the school in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website
- their children's personal devices in the school (where this is allowed)

Policy Statements

Education – Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in online safety is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum is provided as part of the computing curriculum.
- Key online safety messages should be reinforced as part of a planned programme of assemblies.
- Pupils are taught in lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Pupils are taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils are supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.

- Pupils are helped to understand the need for the pupil Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff act as good role models in their use of digital technologies, the internet and mobile devices.
- In lessons where internet use is pre-planned, pupils are guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, staff are vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics (eg racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

Education – Parents / Carers

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond. The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters, web site, Learning Platform
- Parents / Carers evenings / sessions
- High profile events / campaigns e.g. Safer Internet Day
- Reference to the relevant websites / publications e.g. swgfl.org.uk www.saferinternet.org.uk/ <http://www.childnet.com/parents-and-carers> (see appendix for further links / resources)

Education & Training – Staff / Volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal online safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school Online Safety Policy and Acceptable Use Agreements.
- It is expected that some staff will identify online safety as a training need within the performance management process.

- The Online Safety Officer will receive regular updates through attendance at external training events (e.g. from SWGfL / LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations.
- This Online Safety Policy and its updates will be presented to and discussed by staff in staff meetings / INSET days.
- The Online Safety Officer will provide advice / guidance / training to individuals as required.

Training – Governors

Governors should take part in online safety training / awareness sessions. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation (e.g. SWGfL).
- Participation in school training / information sessions for staff or parents (this may include attendance at assemblies / lessons).

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people will be effective in carrying out their online safety responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements.
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- The “administrator” passwords for the school / academy ICT system, used by the Network Manager (or other person) must also be available to the *Headteacher* or other nominated senior leader and kept in a secure place (e.g. school / academy safe)
- Concerro are responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations.
- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider Senso. Internet use is logged and regularly monitored.
- Internet filtering should ensure that children are safe from terrorist and extremist material when accessing the internet.
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.

- An appropriate system is in place (support@concerro.com) for users to report any actual / potential technical incident / security breach to the relevant person, as agreed).
- Appropriate security measures are in place ([Senso](#)) to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.

Mobile Technologies

Mobile technology devices are school owned and might include: tablet, notebook / laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet and other cloud based services such as email and data storage.

All users should understand that the primary purpose of the use mobile / personal devices in a school context is educational. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's Online Safety education programme.

- The school Acceptable Use Agreements for staff, pupils and parents/carers will give consideration to the use of mobile technologies
- The school allows:

	School Devices			Personal Devices		
	School owned for single user	School owned for multiple users	Authorised device ¹	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	Year 5/6 only to be left in office with parent consent	Yes <i>Chadsmead Primary Academy Mobile Phone Policy</i>	Yes <i>Chadsmead Primary Academy Mobile Phone Policy</i>
Full network access	Yes	Yes	Yes	No	No	No
Internet only				No Wi-Fi access	No Wi-Fi access	No Wi-Fi access

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular, they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Written permission from parents or carers will be obtained at the beginning of the year on the General Parental Consent before photographs of pupils are published on the school website / social media / local press.
- Staff are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment. The personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission.
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images and consent given in the General Parental Consent Form.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.

Data Protection – *Subject to changes in line with new GDPR Regulations*

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The school must ensure that:

- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the “Privacy Notice” and lawfully processed in accordance with the “Conditions for Processing”.
- It has a Data Protection Policy
- It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)
- Responsible persons are appointed / identified - Senior Information Risk Officer (SIRO) and Information Asset Owners (IAOs)
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data.
- Data subjects have rights of access and there are clear procedures for this to be obtained.
- There are clear and understood policies and routines for the deletion and disposal of data.
- There is a policy for reporting, logging, managing and recovering from information risk incidents.
- There are clear Data Protection clauses in all contracts where personal data may be passed to third parties.
- There are clear policies about the use of cloud storage / cloud computing which ensure that such data transfer / storage meets the requirements laid down by the Information Commissioner’s Office.

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected
- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device, in line with school policy once it has been transferred or its use is completed.

When using communication technologies, the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. Staff and pupils should therefore use only the school email service to communicate with others when in school, or on school systems (e.g. by remote access).
- Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and pupils or parents / carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Whole class / group email addresses may be used at KS1, while pupils at KS2 and above will be provided with individual school email addresses for educational use.
- Pupils are taught about online safety issues, such as the risks attached to the sharing of personal details. They are also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information is not posted on the website and only official email addresses are used to identify members of staff.

Social Media - Protecting Professional Identity

All schools, academies and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the school or local authority / academy group liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information

When official school social media accounts are established there should be:

- A process for approval by senior leaders.
- Clear processes for the administration and monitoring of these accounts – involving at least two members of staff.
- A code of behaviour for users of the accounts, including.
- Systems for reporting and dealing with abuse and misuse.
- Understanding of how incidents may be dealt with under school disciplinary procedures.

Personal Use:

- Personal communications are those made via a personal social media account. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The school permits reasonable and appropriate access to private social media sites.

Monitoring of Public Social Media

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school
- The school should effectively respond to social media comments made by others according to a defined policy or process

If an official school social media account should be established, the school's use of social media for professional purposes will be checked regularly by the senior risk officer to ensure compliance with the school policies.

Unsuitable / inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in / or outside the school / academy when using school equipment or systems. The school policy restricts usage as follows:

User Actions

		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	Promotion of extremism or terrorism				X	
	Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Using school systems to run a private business					X	
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school / academy					X	
Infringing copyright					X	
Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)					X	
Creating or propagating computer viruses or other harmful files					X	

Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X	
On-line gaming (educational)		X			
On-line gaming (non-educational)				X	
On-line gambling				X	
On-line shopping / commerce			X		
File sharing			X		
Use of social media				X	
Use of messaging apps				X	
Use of video broadcasting e.g. Youtube		X			

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below) for responding to online safety incidents and report immediately to the police.

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed and signed (except in the case of images of child sexual abuse – see below).
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - Internal response or discipline procedures
 - Involvement by Local Authority / Academy Group or national / local organisation (as relevant).
 - Police involvement and/or action
- **If content being reviewed includes images of Child abuse, then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:**
 - incidents of 'grooming' behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - promotion of terrorism or extremism
 - other criminal conduct, activity or materials
- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the school and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School / Academy Actions & Sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents

of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:

Pupils Incidents		Refer to class teacher	Refer to Headteacher	Refer to Police	Refer to technical support staff for action re filtering / security etc.	Inform parents / carers	Removal of network / internet access rights	Warning	Further sanction eg detention / exclusion
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).		X	X	X		X	X		X
Unauthorised use of non-educational sites during lessons		X							
Unauthorised / inappropriate use of mobile phone / digital camera / other mobile device		X				X		X	
Unauthorised / inappropriate use of social media / messaging apps / personal email		X				X		X	
Unauthorised downloading or uploading of files		X			X			X	
Attempting to access or accessing the school network, using the account of a member of staff		X	X		X	X		X	
Corrupting or destroying the data of other users		X						X	
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature		X	X		X	X		X	
Continued infringements of the above, following previous warnings or sanctions		X	X		X	X		X	X
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school		X	X		X	X	X	X	X
Accidentally accessing offensive or pornographic material and failing to report the incident		X	X	X	X	X		X	
Deliberately accessing or trying to access offensive or pornographic material		X	X	X	X	X	X	X	X

Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act		X	X		X	X		X	
Staff Incidents	Refer to Headteacher	Refer to CAT	Refer to Police	Refer to Technical Support Staff for action re filtering etc.	Warning	Suspension	Disciplinary action		
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).		X	X	X				X	
Inappropriate personal use of the internet / social media / personal email	X	X			X			X	
Unauthorised downloading or uploading of files	X			X	X				
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account	X			X	X				
Careless use of personal data e.g. holding or transferring data in an insecure manner	X	X			X				
Deliberate actions to breach data protection or network security rules	X	X		X	X				
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software	X	X		X				X	
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	X	X						X	
Using personal email / social networking / instant messaging / text messaging to carrying out digital communications with pupils	X	X						X	
Actions which could compromise the staff member's professional standing	X	X			X				

Actions which could bring the school / academy into disrepute or breach the integrity of the ethos of the school / academy	X	X			X	
Using proxy sites or other means to subvert the school's filtering system	X	X		X		X
Accidentally accessing offensive or pornographic material and failing to report the incident	X	X		X		X
Deliberately accessing or trying to access offensive or pornographic material	X	X		X		X
Breaching copyright or licensing regulations	X					X
Continued infringements of the above, following previous warnings or sanctions	X	X				X

APPENDIX 1

Staff, Governor, Visitor Acceptable Use Agreement

ICT (including data) and the related technologies such as email, the internet and mobile devices are an expected part of our daily working life in school. This policy is designed to ensure that all staff are aware of their professional responsibilities when using any form of ICT. All staff are expected to sign this policy and adhere at all times to its contents. Any concerns or clarification should be discussed with Chadsmead Primary Academy.

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that pupils receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communication systems and that a record of activity is kept.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptop, email etc) out of school, and to the transfer of personal data (digital or paper based) out of school.
- I understand that the use of school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by my school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school ICT systems.

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on

the school website) it will not be possible to identify by name, or other personal information, those who are featured.

- I will not use social networking sites in school.
- I will only communicate with students / pupils and parents / carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any online activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the *school*:

- When I use my mobile devices (laptops / tablets / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using *school* equipment. I will also follow any additional rules set by the *school* about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Policy. Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based Protected and Restricted data must be held in lockable storage.
- I understand that data protection policy requires that any staff or pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school / academy policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this Acceptable Use Policy applies not only to my work and use of school digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and in the event of illegal activities the involvement of the police.

I have read and understood the issues enclosed in the Chadsmead Primary Academy Acceptable Use Agreement and will comply fully with the guidance and advice contained within this document.
